My responsibility for monitoring, maintaining, and improving the existing software. I'm also responsible for reviewing and debugging code. Of course, as software engineer, it's also my responsibility to identify, priority, and execute tasks in the software development life cycle.

Projects: Amazing-chatbot

Duration: 06/2024- 9/2024

Descriptions: Quick insights into overall financial health to company. This chatbot contains search utterances and their corresponding intents from the finance. The data can be used to train intent recognition models Natural Language Understanding (NLU) platforms.

Technology: Python .Net, NLU...Flask API, Docker and Kubernetes. Jenkins.

Projects: FTICareer.vn

Duration: 10/2023 - 12/2023

Description: This website provides detailed information about the company and the job positions available for recruitment.

<https://fticareer.vn/>

Technology: .Net framework and SQL Server. SNS on AWS, Auth2 with LDAP to build single sign on.

Projects: ASM

Duration: 07/2023 - 09/2023

Description: ASM is an IT asset management project aimed at enabling IT departments to track laptops, software licenses, accessories, and related information.

Technology: Laravel/ PHP and MySQL, Kafka.

Oct 2016 - Jul 2022

WEB DEVELOPER | FULL STACK DEVELOPER

FPT Telecom

Description:

As a versatile IT professional, I specialize in various aspects of solution design, development, and support. My responsibilities include:

Developing applications and websites for both internal and external users.

Designing and implementing user-friendly websites, including an optimized check-out page that boosted

Identifying and resolving bugs in existing websites while implementing enhancements that significantly enhance web functionality and speed.

Project: IHUB

Duration: 08/2020 - 03/2021

Name of customer SDC (Internal team FPT)

My team size 5 dev, 1 PM

Technology: Net Core 3.1, Cronjob, Kong A Gateway, GRPC, REST API

Project: IDC SERVER

I designed web-portal to manage datacenter and server performance management which role PM in project.

Technology: .Net core 2.1, Kafka, Redis, Message queue (RabbitMQ).

Project: EDU FTC

Duration: 02/2020 - 04/2020

internal training and external training for employees.

<https://daotao.fpt.vn/>

Technology: .Net framework, ReactJS. SQL Server, Kafka.

Project: MEMBER FTI (FPT.VN/FTI)

Duration: 11/2018 - 02/2019 <https://fpt.vn/fti/>

Design a portal to get billing from inside system and support ticket in this system.

Technology: Laravel 5.3 (php), Python, ReactJS, SQL server, MySQL. Kafka, Auth0, Auth2.

Project: CLOUD INSIGHT

Duration: 02/2018 - 05/2018

Build and maintain the applications for manage service.

Technology: .Net framework 3.5, SQL server.

Project: MEMBER FPT (FPT.VN/MEMBER)

Duration: 07/2017 - 10/2017

A self-service portal is a website that offers information and resources to help sign contract for customer... payment and monitor service of camera. internet URL: <https://fpt.vn/member> .

Technology: Flask API, Python, Crontab, .Net API, Laravel (PHP), MySQL, Kafka, Kong A, MongoDB, Docker / Kubernetes, Microservice, RabbitMQ.

Project: IVOICE

Duration: 04/2017 - 07/2017

Design a feature registration form customer and deploy service.

Net framework. SQL Server... Kafka, PostgreSQL.

Project: HI GIO CLOUD

Duration: 11/2016 - 02/2017

URL: <https://higio.net/> provide API by Flask python and Web Portal by Php/Laravel.

Php, Redis, MySQL, Python. Crontab, Kafka. NoSQL MongoDB.

May 2015 - Oct 2016

.NET DEVELOPER

FPT Software

Description:

File Management: Applications for managing and viewing files on devices.

System Configuration: Custom settings for Windows environments (e.g., default browser changes).

Server Response Testing: Developed simulators to test and analyze server responses.

Display Integration: Applications for glass displays to view files and content.

Project: Window 10 Setting

Duration: 2 months

Team size: 3

Role: DEV

Environment: Windows 10.

Project Detail: Configuration Window 10 system to change some default of browser.

Project: Effect Management application

Duration: 3 months

Team size: 16

Role: DEV

Environment: Window 7/8/10.

Description: Create an application to management file in device.

Project: Single sign on

Duration: 3 months

Team size: 2

Role: DEV

Environment: Window 7/8/10, Window server 2008/2012.

Description: Maintenance and development new function for Window 8/10 and configuration Ipv4/Ipv6.

Project: Simulator

Duration: 1 months

Team size: 1

Role: DEV

Environment: Window 7/8/10. Visual studio 2013.

Description: Creating an application to test response from server.

Project: Setting Glass

Duration: 2 months

Team size: 3

Role: DEV

Environment: Window 7/8/10. Visual studio 2015.

Description: Creating file for glass to view in application.

Project: NFC

Duration: 3 months

Team size: 6

Role: DEV

Environment: Window 7/8/10. Visual studio 2015 using .Net 3.5 .

Description: Configuration NFC card to lock or unlock manual.

EDUCATION

2011-2015

Ho Chi Minh City University of Transport

IT 2011-2015

Engineer's degree Good Technology
